Wateen Alreshoodi

Computer Science

I'm a computer science student at Qassim University. I'm interested in AI, web design, and software engineering. Through my studies and projects, I've developed strong programming and design skills. I also co-own a gifts and events store called Banah with my sisters, giving me business experience in marketing and operations. I'm excited to continue growing my professional skills and work on innovative projects.

SKILLS & ABILITIES

Languages
